ABOUT US

Founded in 1998, DPPL is committed to providing innovative end cap solutions that enhance the safety and efficiency of pipe logistics. Our products help prevent damage and delays during pipe handling, improving the quality and safety of logistics processes.

With a focus on innovation, flexibility, and customer satisfaction, DPPL continuously evolves its products to meet the latest industry needs, including special sizes and extreme conditions. We are also dedicated to sustainability, offering recycling options for our products. DPPL ensures reliable, long-lasting protection for your pipes.

OUR TEAM

Manish Dagla

Dhaval Dagla

Introducing Dhaval Dagla, a dedicated Director at Dhaval Packaging Pvt Ltd. His strategic insights and hands-on approach contribute significantly to our operational efficiency, reflecting the collaborative spirit that defines our leadership team.

Aalap Shah

Aalap Shah, Director at Dhaval Packaging Pvt Ltd, brings a dynamic perspective to our leadership. His forward-thinking mindset and commitment to excellence align seamlessly with our company values, fostering innovation in every aspect of our packaging solutions.

Jigar Shah

Meet Jigar Shah, Director at Dhaval Packaging Pvt Ltd. With a keen business acumen, he plays a crucial role in shaping our company's trajectory. Jigar's dedication to customer satisfaction and strategic decision-making underscores our relentless pursuit of packaging excellence.

Jigar Contractor

Introducing Jigar Contractor, Director at Dhaval Packaging Pvt Ltd. His astute business insights and collaborative leadership style contribute to the cohesive synergy within our team. Jigar is instrumental in driving the company's commitment to reliability and customer-focused solutions.

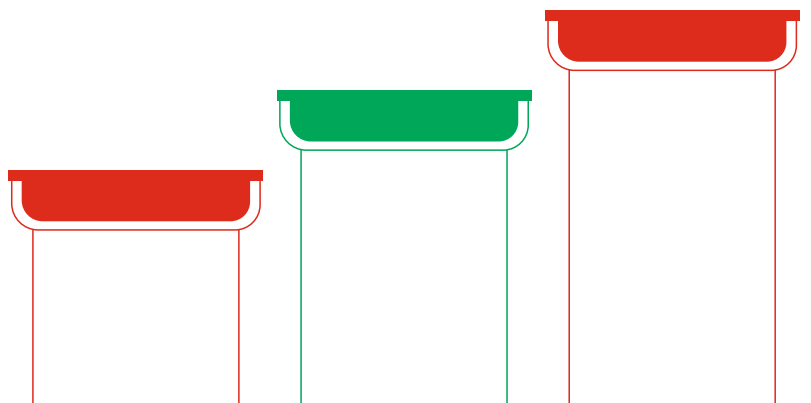

VISION

At DPPL, we are passionate about delivering a premium range of end caps made from the highest-quality materials. Our commitment to excellence drives us to continuously improve, ensuring we not only meet but exceed industry expectations. As a forward-thinking company, we are focused on global expansion, bringing our innovative, top-tier end caps to markets worldwide while upholding the highest standards of quality. With DPPL, you can trust that our end caps provide the perfect solution for your needs, now and in the future.

MISSION

At DPPL, our mission is to provide innovative end caps that deliver superior pipe protection. With a strong focus on quality, collaboration, and advanced manufacturing, we aim to lead the industry by offering competitive, top-tier products that ensure reliable and long-lasting protection for your pipes.

OUR PRODUCTS

■ Plastic End Caps

At DPPL, we provide top-quality end caps designed to meet the needs of various industries. Our key products – Eco Plug, PE Plug, and Recessed Cap – offer reliable protection and easy solutions for all your pipe storage and transport needs.

01 PE Plug

The PE Plug from DPPL offers exceptional pipe end protection and closure in one efficient solution. When used with the Bevel Protector, the PE Plug is securely clamped inside the pipe, ensuring reliable protection.

Available in multiple sizes to fit various pipe diameters, custom dimensions can also be made to suit specific requirements. The elastic nature of the PE Plug allows it to cover a small range of wall thicknesses, guaranteeing a perfect fit and enhanced protection for your pipes.

02 Recessed Cap

The Recessed Cap from DPPL offers a secure and effective solution for protecting pipe interiors during transport and storage. Its design ensures a tight fit, sealing the pipe against environmental elements, and it provides excellent UV stability, making it perfect for outdoor storage.

Easy to apply, the cap fits snugly over the pipe end and clamps securely to the surface. It also supports hook lifting for easy handling. This cost-effective cap is ideal for standard-sized pipes, delivering long-lasting protection throughout logistics and storage.

WHY DPPL

At DPPL, we specialize in producing high-quality end caps that stand out in the industry. Our products offer unmatched benefits to ensure your projects run smoothly:

01 Exceptional Elongation:

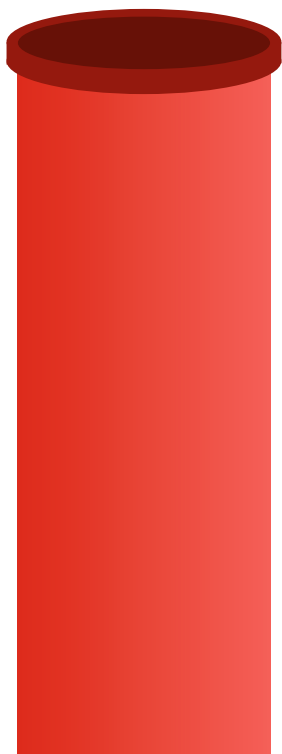

Our end caps are designed for superior flexibility and elongation, making them the perfect fit for a wide range of applications. This ensures enhanced durability and performance, no matter the challenge.

02 Timely Delivery, Every time:

We understand the importance of meeting deadlines. With DPPL, you can rely on our commitment to delivering your orders on time, ensuring your production schedules are never interrupted.

03 Variety of Cap Sizes:

DPPL offers an extensive range of cap sizes to meet the diverse needs of our customers. Whether you're working with standard or custom specifications, we provide the right solution to fit your exact requirements.

■ KEY FEATURES

Why PE Plastic Plug	Advantages
After putting plastic plug- in cap Bevel protector strip can be installed.	Application range: 2"-80" (50.8 mm-2032 mm)
